RISK MANAGEMENT POLICY

BACKGROUND

Swarnsarita Gems Limited (the Company) is engaged in the Manufacturer, Wholesaler of high-end Gold Jewellery and Diamond Jewellery primarily in India and across various Countries. The business activities of the Company carry various internal and external risks. 'Risk' in literal terms can be defined as the effect of uncertainty on the objectives. Risk is measured in terms of consequences and likelihood. Risks can be internal and external and are inherent in all administrative and business activities. Every member of any organization continuously manages various types of risks. Formal and systematic approaches to managing risks have evolved and they are now regarded as good management practice also called as Risk Management. 'Risk Management' is the identification, assessment, and prioritization of risks followed by coordinated and economical application of resources to minimize, monitor, and control the probability and/or impact of uncertain events or to maximize the realization of opportunities. Risk management also provides a system for the setting of priorities when there are competing demands on limited resources. Effective risk management requires:

- A strategic focus,
- Forward thinking and active approaches to management
- Balance between the cost of managing risk and the anticipated benefits, and
- Contingency planning in the event that critical threats are realized.

In today's challenging and competitive environment, strategies for mitigating inherent risks in accomplishing the growth plans of the Company are imperative. The common risks inter alia are: Regulations, competition, Business risk, Technology obsolescence, return on investments, business cycle, increase in price and costs, limited resources, retention of talent, etc.

LEGAL FRAMEWORK

The Securities and Exchange Board of India ("the SEBI") has notified SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 ("SEBI (LODR) Regulations") vide notification no. SEBI/LAD/NRO/GN/2015-16/013, dated 2nd September, 2015, which was effective from 1st December, 2015.

RISK FACTORS

The objectives of the Company are subject to both external and internal risks that are enumerated below:-

External Risk Factors:

- Economic Environment and Market conditions
- Political Environment
- Competition
- Revenue Concentration and liquidity aspects

Each business area of products such as pumps, turbines, motors, generators, switchgears and turnkey projects has specific aspects on profitability and liquidity. The risks are therefore associated on each business segment contributing to total revenue, profitability and liquidity. Since the projects have inherent longer time-frame and milestone payment requirements, they carry higher risks for profitability and liquidity.

Inflation and Cost structure - Inflation is inherent in any business and thereby there is a tendency of costs going higher. Further, the project business, due to its inherent longer timeframe, as much higher risks for inflation and resultant increase in costs.

Technology Obsolescence – The Company strongly believes that technological obsolescence is a practical reality. Technological obsolescence is evaluated on a continual basis and the necessary investments are made to bring in the best of the prevailing technology.

Legal – Legal risk is the risk in which the Company is exposed to legal action. As the Company is governed by various laws and the Company has to do its business within four walls of law, the Company is exposed to legal risk.

Fluctuations in Foreign Exchange -The Company has limited currency exposure in case of sales, purchases and other expenses. It has natural hedge to some extent. However, beyond the natural hedge, the risk can be measured through the net open position i.e. the difference between unhedged outstanding receipt and payments. The risk can be controlled by a mechanism of “Stop Loss” which means the Company goes for hedging (forward booking) on open position when actual exchange rate reaches a particular level as compared to transacted rate.
